

Weekend Tournament Information:2024

Weekend Tournaments: Cost: \$25 for the season

This season players can play from the red tees or the yellow tees. Eligibility to play from the yellow tee box will be determined by your handicap index. An index of 34.9 or lower will play from the reds and an index of 35.0 and higher are eligible to play from the yellows. A minimum of 6 players will be required to run the tournament. All winners receive pro shop credits.

Any player that is eligible to play from the yellow tees may elect to play from the red tees if they so choose but only one round can be played per weekend and you must signify of the card that you played the from the red tees. Red tee players cannot play from yellow tees unless it is a specific game for that weekend.

Tournaments will run from Friday to Sunday and all scores must be posted to GHIN by Monday 12:00 P.M.

The weekend tournament will vary each weekend. A full list of the season's games will be posted in the locker room. The specific game will be written on the sign-up sheet in the locker room as well as how to score the game.

The sports committee will enter your handicap based on the GHIN report each Friday.

Before Play:

You must be playing with at least one other member of the club

Sign up on the sign-up sheet in the locker room before play begins

Write your names, first initial and full last name. All players names and scores must be recorded on the card whether they are playing in the tournament or not.

Again, if you normally play from yellows and decided to play the red tees it must be written on your score card.

After Play:

Cards must be signed, dated and attested.

Post your scores on the scoresheet in the locker room and place score card in the tournament box.

If you did not complete your round, mark it with (NC) and place in the tournament box, you will be counted as a participant for the required number of players. However, a NC will eliminate you from counting that weekend toward "Weekend Warrior" points.
